

## Scheduling Considerations

### I. Hospital Scheduling Parameters

- a. Appropriate skill mix every day
- b. Consistent patient care coverage
- c. Staff do not work more than 6 consecutive days
- d. 15 employees on schedule on Saturday and Sunday
- e. No pre-scheduled OT during pay period
- f. Meet FTE requirements during pay period

### II. Specialty Scheduling Parameters

- a. Exercise Training Center not currently open on weekends
- b. Eastside open Saturday mornings. One person scheduled for 3 per month. Others fill second slot. Two on shift every Saturday and built into regular schedule.
- c. Stadium open Saturday mornings. Three shifts each Saturday. Ten employees share shifts and have filled them through voluntary bidding.
