Subject: Health Care Specialist Range Increases effective 10/16/17

Please share this message with your Health Care Specialist and Health Care Specialist Leads.

Effective 10/16/17, the Health Care Specialist series at HMC received the following range increases:

- Health Care Specialist increased from Range 9 to Range 12 on the BQ table
- Health Care Specialist Lead increased from Range 19 to Range 22 on the BQ table

Employees were placed on the new pay range at the same step to which they were assigned to as of 10/16 which resulted in an approximate 3% increase for each employee in addition to the 2% across-the-board increase.

More information on contract negotiations can be found on the UW Labor Relations website at <http://hr.uw.edu/labor/>
