

Dear GAIP member,

The Graduate Appointee Insurance Program (GAIP) 2021-2022 plan year ends on September 30 and the new plan year begins October 1. Graduate students will receive additional information by email next month about fall quarter GAIP coverage.

If eligible for fall quarter, you (individually) will be automatically re-enrolled to continue GAIP for the upcoming fall quarter of the 2022-2023 plan year and no further action is required.

However, if you have eligible dependents whom you wish to cover under this plan, FURTHER ACTION IS REQUIRED. You are responsible for enrolling your eligible dependents in the Plan by October 31 through the plan administrator and insurer, [LifeWise Assurance Company \(LifeWise\)](https://www.lifewise.com) [student.lifewiseac.com].

If you were covered by GAIP during summer quarter but will lose eligibility starting fall quarter, your coverage will end on September 30. You can contact LifeWise to continue coverage under the [GAIP: Continuation of coverage](#) benefit or await the LifeWise notice mailed to your home address as shown on Workday after mid-October.

For specifics about fall quarter GAIP eligibility requirements, review the [GAIP: eligibility and coverage overview](#) web page. You can find online versions of GAIP email notices at the [GAIP Notices](#) web page. Contact uwgaip@uw.edu or 206-543-8000 with questions or concerns.

Thank you,
UW Benefits
